

MTT A FRAME

OVERVIEW

The A frame is an extendable steel clear span structure constructed of an electroplated mild steel frame and covered with a PVC fabric. There is a variety of side wall options to choose from, e.g. Fabric, - Solid walls, glass panels, doors.

Optional Extras:

Flooring, Lighting, Draping, air conditioners, hammers, peg pullers.

SELLING POINTS:

The main advantage of the A frame is it offers a more cost effective alternative to our framed aluminum Alu-hall of similar size and shape.

STANDARD SIZES:

- 6m wide extendable with 3m or 6m extensions
- 9m wide extendable with 3m or 6m extensions
- 12m wide extendable with 3m or 6m extensions
- 15m wide extendable with 3m or 6m extensions

USES: (small to medium sized venues)

- Weddings
- Homes
- Corporate functions
- Site storage
