

# MTT KWIKSTAY

## OVERVIEW

The Kwikstay is an attractive and perky looking mild steel structure with an attractive tensile patterned roof.

The peak is supported by a flying mast on cables making it a clear span structure without a main pole. The Kwikstay has both a modular and extendable version.

## SELLING POINTS:

- Relatively inexpensive frame structure.
- It is stable and easy to erect.
- It is completely self standing.
- The sliding walls make for easy opening and closing and are tensioned with bungie cord at the bottom.

## STANDARD SIZES:

- These are extendable or modular structures ; 3m x 3m, 3m x6m, 4m x4m, 4m x 8m, 5m x5m, 5m x10m, 6m x6m and 6m x 12m.
- The modular can be joined with gutters.
- Sizes can also be customised to customer's requirements.

## USES:

Kiosks, small functions, stalls food and beverage points, walkways.
