

MTT PALOMINO

OVERVIEW

The basic MTT Palomino Saddle Tent is a twin arched lattice beamed structure that is hinged on base plates giving a dramatic clear span layout. With computer aided design, the Palomino Saddle Tent can withstand high winds with minimal flapping. Designed out of the need for a multipurpose stage or entertainment structure.

SELLING POINTS:

- The Palomino Saddle Tent is a modular construction that allows for a variety of applications to be customized by adding additional modules to the tent. This versatility enables the Palomino Saddle Tent to be extendable in any direction.
- The Palomino can be attached together to extend the size and change the shape of the structure.

STANDARD SIZES:

Palomino Saddle Tent sizes can be customized to your individual need or purpose for the structure or according to the required area

USES:

The Palomino Saddle Tent can be used for a number of applications. These include Outdoor Stage Coverings, Party Venues, Special Event Tents and Auditoriums.

The Palomino Saddle Tent can be used as a temporary or permanent install.
